

How Consigning a Horn Works

If you consign your horn with Morse Instrument Repair, we will:

- Inspect the instrument and recommend any repairs or cleaning to prepare for sale.
- Research like instrument sales and work with you to arrive at a fair selling price.
- Advertise your horn, list it on our website and take it to trade shows which specialize in horn/brass.
- Carefully pack and ship the horn as needed.
- Collect state sales tax as appropriate.
- Provide an option of a 7 day trial period. (see Terms of Sale)

When your horn is sold and the trial period has elapsed, we will send you payment for the amount of the sale, minus consignment fee (12% or \$200, whichever is higher) and any pre-agreed upon repair charges.

If you decide to consign a horn with Morse Instrument Repair, please contact us ahead of time to make arrangements.
